

# Energy Management System (EMS)

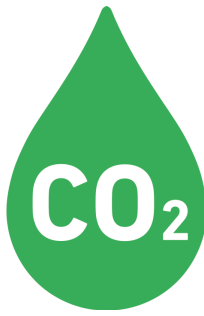

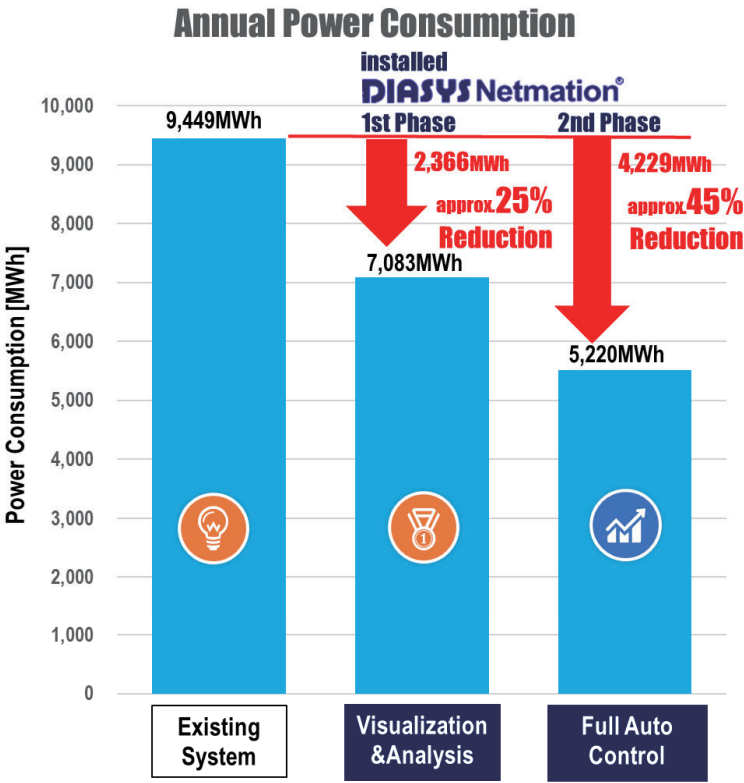

## DIASYS Netmation<sup>®</sup>

### System Configuration

Prior to cloud-based IoT solutions, MHI has been building Energy Management Systems (EMS) to be installed at factories and utilities. MHI, as a plant and machinery manufacturer, brings together its unique expertise to provide energy management solutions for factories.

### Case Study (Thailand)

CO<sub>2</sub> Saving.  
**1,912** t/year
